Digitizing films - 1

We professionally digitize your old cine films on ready-made DVD's or Blu-Ray's or as a digital file so you can edit the film yourself. For example with Pinnacle Studio, Adobe Premiere or Magix Video Deluxe. All files can be played on almost all of the latests TVs, tablets and smartphones without any problems.

We can convert the following types of cine film: 8mm film (Single 8, Super 8 and Regular 8) and 16mm film. The sound of the film (including stereo) will be transferred lip-sync.

Our film scanners are equipped with Machine Vision cameras which are controlled with an optocoupler. This allows us to record every frame separately. The result is extraordinary and exceeds FlashScan 8 or FlashScan HD.

Digitizing films - 2

Digitizing (/minute)	-120 min	121-480 min	480+ min
8 mm film - standard definition 720 x 576 pixels	€ 1,20	€ 1,10	€ 0,99
8 mm film - high definition 1920 x 1080 pixels	€ 2,00	€ 1,80	€ 1,69
16 mm film - standard definition 720 x 576 pixels	€ 3,15	€ 2,65	€ 2,40
16 mm film - high definition 1920 x 1080 pixels	€ 4,65	€ 4,15	€ 3,90
